

# COMET SR

Especially for municipal vehicles of road maintenance services, building yards or public utilities, etc., optimal equipment with conspicuous warning systems is very important to ensure safety and protection during work. Our COMET SR convinces not only with a flat and modern design, but also with the best possible visibility and warning effect due to the rotating light function (ECE-R65 approval). When rotating light is required, our COMET SR is the best solution to protect the work site and the employees.

## PRODUCT FEATURES :

- compact plastic housing
- two rows of LEDs provide a high warning effect
- flash pattern: switching between rotating light and strobe flash possible
- 4-wire connection cable
- function monitoring
- options:
  - fixed mounting
  - analogue or CAN447 variant

<b>Technical data:</b>	
Designation:	COMET SR
Voltage:	9 - 32 V multi voltage
Flash frequency:	> 2 Hz
Average power consumption:	12 V: 1,3 A / 24 V: 0,7 A
Material:	lamp dome: PC / socket: ASA
Type of protection:	IP5K4K / IPX9K
<b>Homologation: (Germany and international)</b>	
Light according to ECE-R 65:	TA1(E1)00 5170 / TA1(E1)00 5171
EMC according to ECE-R 10:	(E1)10R-05 01 9004 00
